# JERWIN NICO H. QUIJANO

Freelance Full-Stack Developer | React, Python & PostgreSQL
Philippines | 09917604723 | jerwinquijano19@gmail.com
github.com/jico19 | jico-dev.vercel.app

## PROFESSIONAL SUMMARY

Freelance full-stack developer based in the Philippines, building client tools and web applications since 2024 with React, Python, and PostgreSQL. Currently developing a US healthcare operations platform and FarmPass, a livestock transport permit capstone project. Open to junior full-stack opportunities.

## EDUCATION

**DALUBHASAAN NG LUNGSOD NG LUCENA**
Bachelor of Science in Information Technology 2023-Present
Expected graduation: June 2027

## WORK EXPERIENCE

**ST BUSINESS CONSULTING - US CLIENT**
Freelance Full-Stack Developer August 2026-Present
React, FastAPI, PostgreSQL, Supabase

- Building an ongoing healthcare operations platform for Florida, Indiana, and Georgia, handling frontend and backend implementation.
- Implemented caregiver onboarding, credential tracking, client intake, service agreements, care plans, authorizations, and scheduling workflows.
- Implemented state-scoped authorization and data-access boundaries to restrict access to authorized records.
- Built audit logging, electronic signatures, and data-retention workflows; organized backend components into modular application features.

**INDEPENDENT CLIENT PROJECTS**
Freelance Developer 2024-Present

- Building paid client tools and web applications, working from project requirements through implementation.

## PROJECTS

**FARMPASS - LIVESTOCK TRANSPORT PERMIT SYSTEM**
Full-Stack Developer | Capstone project January 2026-Present
Sariaya Municipal Agricultural Office
React, Django REST Framework, PostgreSQL, MapLibre
Preparing for final defense in November 2026.

- Built the React frontend and Django REST Framework/PostgreSQL API for livestock transport applications and role-specific review.
- Implemented guarded approval transitions with audit records and OCR-assisted document review with a manual fallback.
- Built UUID-based QR permit verification, checkpoint logging, and barangay survey maps.

## TECHNICAL SKILLS

**Languages:** Python, JavaScript, HTML, CSS
**Backend:** Django, Django REST Framework, FastAPI, REST APIs, JWT authentication
**Frontend:** React 19, Vite, Tailwind CSS
**Databases and Integrations:** PostgreSQL, Supabase, PayMongo API
**Tools and Workflow:** Git, GitHub, automated testing, technical documentation, AI coding assistants
